Three members furnished a great deal of amusement to the others over the destruction of three hats, one of which was declared to be unfassionable. The member who did not own this hat trimmed it down to suit his tast while the owner of the hat was not looking. Then the owner sat upon the hat which was possessed by the man who did the trimming. Secretary Wilson Declares Conditions in West Are Satisfactory.

Washington. D. C., September 9.—
"Business and agricultural conditions throughout the West and Northwest are notably prosperous. The crops this year scarcely will be bumper crops in the ordinary sense of that term, but they will be very large."

This statement was made to-day by Secretary Wilson of the Department of Agriculture, who returned to-day from an extensive trip consuming practically two months, through the country west of the Mississippi River.

"The corn crop will be made now within a couple of weeks," continued Secretary Wilson. "Recently the weather conditions have been very favorable, and if frost should hold off two weeks longer, the crop will be good average, although, as I said, not a bumper. All of the crops are fairly good; better, perhans, than we had reason to expect earlier in the year. The wheat crop is threshing out finely, and is of excellent quality. Oats are good, but the crop is not very large.

"People throughout the sections which I visited are well satisfied with conditions. They are making money, and are contented with general business conditions."
